BLUEST SUNDAY FOR NEW YORK

Dare Not Tell Latest Joke Even in Public.

Bingham Orders Lid Banged Down With "Horse Sense."

NEW YORK, Dec. 7 .- To amuse any one in public in New York tomorrow will be to break the law. Whoever wants to crack a joke, or sing a song or bang a piano, or do anything else like that had better retire into his boudedr and do it in private. Otherwise he will be "pinched." The police won't be "silly or domineering," because Com missioner Bingham told 'em not to. He warned them also to use "horse sense."

But all these qualifications won't prevent the arrest of every violator of Gotham's anti-Sunday amusement statute. Interpretation of its provisions is easy. If a thing's public and amusing it's against the law.

Raines law saloons may do busines as they will. They will. The saloon keepers think enforcement of the antiamusement statute a nice thing. They figure that about 1,000,000 people will rush into their places and drink and drink as the only escape from the tiresomeness of the outside.

Restaurants may have orchestral music, but the minute a singer appears the lentertainment becomes amusing and the police will step in. Some of the things that can't be done-or held-are these Dancing, bicycle racing, roller skating theatrical performances, vaudeville concerts-even sacred concerts, athletic games, moving picture shows, Y. M. C. A. parties, educational gatherings charitable entertainments.

There is no doubt that the law will be enforced. Commissioner Binghan meant what he said to his twenty in-

When the city council sets out to try to amend the regulation next week, however, what the theatrical managers will try to do to it will be "a-plenty."

America Swift;

Specifications are being prepared by the War Department for an aeroplan to be added to the air fleet of the Signal Corps of the army. It is propo to go a step farther than the dirigible balloons already provided for, and t build a powerful and eminently useful engine of war. It is believed that a perfected aeroplane will do more effec-tive work than a dirigible balloon, and consequently bids will be invited for the "heavier than air" machine.

The specifications will be of such general scope as to permit inventors and near-inventors all over the country to nation the most likely plan will be adopted. The machine will have to be of sufficient capacity to carry at least one, and possibly two, men, and sufficient explosives to make it a powerful engine of destruction.

This is a new departure in aeronautics for the army, although the possibilities of aeroplanes have been considered in an unofficial way. While the aeroplane idea did not or-

iginate with the board of ordnance and fortification it was through the action it was made possible of consummation.

BOOM CULBERSON

Texas Senator Talked of as Successor to Taggart.

Just honored by his party colleagues in the Senate in being unanimously selected as their leader on the floor, Sen ator Culberson of Texas is now being talked of in connection with the chair manship of the Democratic National Committee. The resignation of "Tom" Taggart is expected to be laid before the committee when it meets next Thursday, and there is little doubt that it will be promptly accepted.

In easting about for his successor many Democrats are new expressing the opinion that the most available the opinion that the most available man is the senior Senator from Texas. The party leaders have unlimited confidence in Culberson's loyalty to Democratic principles and in his political sagacity. While aggressively partisan when occasion requires, he is regarded as censervative, and his friends declare that a campaign waged under his management would be condicted sanely, wisely, and on a high plane. "Tom" Johnson, of Cleveland, is a candidate for the chairmanship, but there are a great many Democrats who object to the idea of following the leadership of so prominent an advocate of the single tax idea.
